

# Railway Network including cycle restrictions

# Manor Royal commuter routes chart

The chart overleaf provides basic information on public transport routes for managers.

The chart enables you to assess practical routes for staff and visitors to get to your business premises in Manor Royal by public transport, walking or cycling (or combination of these). You can then plan how to encourage use of these modes of travel, including providing more detailed information on particular services.

It can also help you identify where there are no suitable services and where support for other options, such as car sharing could be provided.

This includes the earliest train or bus departures, frequency of services, how long they take and options for onward travel from Crawley stations to locations in Manor Royal.

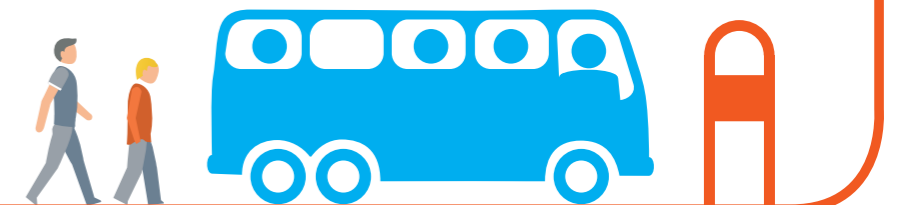

Chart information is indicative only and not intended to substitute for transport providers' timetables. These can be obtained from bus and train service providers, either online at [www.nationalrail.co.uk](http://www.nationalrail.co.uk) and [www.metrobus.co.uk](http://www.metrobus.co.uk) or at local stations.
