RE: Crawley Manor Royal Highways Improvement Project – Proposed One-Way System

Dear Sir / Madam

The Crawley Growth Programme is a £60 million package which will unlock jobs, business space and homes in the town through major infrastructure improvements. This is an exciting partnership project which will transform both the living and business environment of Crawley.

Following a public engagement exercise that was carried out in February 2019, where preliminary road-layout options were consulted upon, refined proposals have now been prepared for residents and businesses to comment on before the scheme moves towards implementation for early 2021.

As part of a wider package of proposed highway improvement measures in and around the Manor Royal Business District, The Crawley Growth Programme is proposing to implement a new One-Way System along Metcalf Way between its junctions with County Oak Way as shown on the attached drawing No. 0757-SK-513.

The proposed One-Way system aims to:

- Improve the flow of vehicles and allow queuing space for Crawley Household Waste and Recycling site.
- Reduce the blocking of through-traffic particularly those who need to access Enterprise Court.
- Provide dedicated parking bays that allow for road space to be defined and prevent issues such as inconsiderate parking and blocked accesses.
- Provide a new raised crossing in the centre of Metcalf Way that will facilitate both an improved pedestrian/cycle link between the off-road routes and assist in the calming of traffic.
- Provide speed humps that will regulate vehicle speed and control anti-social driving behaviour, particularly at night.

**This project is brought to you by the
Crawley Growth Programme**

- Modify junction radiuses to increase parking provision in these locations, slow vehicle speeds, reduce pedestrian crossing distances and reduce possible instances of vehicles proceeding along the one-way system in the wrong direction.

For further information on the proposed wider package of improvement measures associated with the Crawley Growth Programme, please visit the following link www.manorroyal.org/CGP.

If you wish to make any comments regarding the proposed scheme, please send your comments by **21 October 2020** to the following:
