

Fleming Way Parking Changes

****Informal Consultation****

This note has been put together by the Manor Royal BID to let you know about a proposal to introduce new parking restrictions to the western end of Fleming Way. This is *NOT* a formal consultation. It is a polite advance notice of the plans to make changes to the parking arrangements on this section of road.

What is the problem?

There is a section of Fleming Way between the Astral Towers roundabout up to the junction with the Satellite Business Village where there are no parking restrictions. This has resulted in traffic conflicts, particularly for wide vehicles and buses, and complaints about safety caused by vehicles parked on both sides of this stretch of road. This is contrast to the rest of Fleming Way and all the other main roads in the Business District e.g. Manor Royal road, Gatwick Road and London Road where no parking is allowed at any time.

What is the solution?

The solution is to extend the “No Waiting” restriction along the full length of Fleming Way.

What section of Fleming Way does this effect?

Attached are two maps of the area. One shows the current restrictions and the other shows the proposed change. The version of the map with the most red on it shows the proposed extended “no waiting” restriction.

When will it happen?

There is no definite timeframe for this although it is expected to be introduced by the end of the year, possibly Autumn 2021, as part of the other road and junction improvements planned for Manor Royal as part of the multi-agency Crawley Growth Programme.

What happens next? / How do I comment?

Please send any comments you may have to the Manor Royal BID Office. We will collate any feedback and share it with West Sussex County Council (the Highways Authority). Later in the year the Council will conduct a formal consultation exercise as part of the Traffic Regulation Order (TRO) process to introduce the planned changes.
