

## **ONLY USE A REGISTERED SCRAP METAL COLLECTOR**

To be allowed to collect scrap metal from any business in Crawley a trader MUST be registered with Crawley Borough Council.

### **If they are not registered, do NOT use them!**

Using an unregistered trader can lead to problems. You have no assurances that they will follow good practice in the disposal of the scrap they collect. Using an unlicensed collector encourages “rogue” traders in Manor Royal and can cause problems for your business.

### **How to check**

Scrap metal dealers are required to complete an enhanced application to be a holder of either a Site licence or a Collector’s licence. A list of registered dealers and collectors can be found on the Environment Agency website: <https://environment.data.gov.uk/public-register/view/search-scrap-metal-dealers>

**Please be aware.** Scrap Metal Collectors have mobile operations and have no address information associated with their licence. So a search by location will not return any Collectors. They are available if you search by licence holder name, licence number or local authority.

### **Registered dealers and collectors in Crawley**
