Message:

Coronavirus is pushing vulnerable children and families to the edge - and it's also caused our monthly income to drop by a third. We're working flat out to help vulnerable children in their hour of need and urgently need funds - **[please, if you are able, donate today.](#)**

Many children already living with mental health issues are finding their problems are exacerbated by the lockdown, including feeling anxious, lonely, and unsafe at home. We're working hard to support children safely at this terrible time.

[The sooner you can make a donation, the sooner we can act - and the sooner a vulnerable child will feel that they have not been forgotten.](#)

You'll be helping a vulnerable child in their hour of need.

Thank you,
