Message:

We predominantly supply, install and service automation and Fixed Electrical Ground Power for aircraft when on the stands.

We also have our own fully certified bomb blast enhanced ASIAD compliant door system and recently the only company in the UK to blast test our covid screens.

Being mainly an engineering company, we changed our workshop on Manor Royal to accommodate the manufacture of COVID screens.

So far we have installed over 750 + screens at Gatwick, 250 + at London City Airport and various RAF bases.

You can order COVID Screen direct from us, please call 01293 567929 or email sales@jlc-group.co.uk
