

This area has been selected to form one of a series of micro-parks across Manor Royal, providing a network of improved facilities including seating, outdoor meeting spaces and a legacy for the people of Manor Royal.

Artist Dallas-Pierce-Quintero and Landscape Architects Allen Scott will be working in partnership with Manor Royal BID to bring the story of Manor Royal and it's people to life.

What would you like to see here? How would you like it to look? Become part of the story.

Have your say and help inform the development of this area, we'd love to hear from you!
